FBI-King Section 90 Serials 6153- 6176 214 pp released

6154 McMillan on the back, too. Sent associate Stuart Johnson to pick copies 1st 443 pp. up.

Unrecorded serial to CRD 12/21/76 somehow has a picture of me and one of the "tramp" sketch attached to an attachment. Picture suggests a Polaroid taken in N.O. See 6168

6164 is E.J.McDonough to J.S. Peelman 12/22/76 setting forth what he told OPR about command in King case in Washington.

6168 is N'hum airtel 12/15/76 repeating the same story but attributing it to a DEA informer. Says three pictures of Dr. Gus Prosch and 1 artist's conception attached. Some of same pix and same sketch. Full-fce looks like me, profile, if same person, does not. See 6170, which says all comes from reading assassination literature. The Liberto part would be hard but the rest easy.

Unrecorded of 1/7/77 Secret Service to someone named Dan to FBI. It is the Byron Watson story, from jail. Here Watson expects to be released before full term because of publicity Dick Gregory got him. Attached are a Watson letter to President-elect Carter and one from Schweiker to Watson, 6/8/76

Unrecorded 12 pp 1/19/77 Peelman to Gallagher on OPR report, King security and assassinations investigation. Bottom p. 7 it states that the report, which is public, "issues six recommendations as to the security investigation of King." The top of the next page is blacked out and exemption b7 is claimed. Similarly on 9, blacking out.

* Advance copies given to Sen. Eastland and Cong. Rodino, judiciary committee chairmen and declined by Inoye.

6176 is more on Prosch. Oversight in obliterating names leaves in name of Hunt, who is said to have been arrested for curfew violation during the Memphis riots. But thus may be the unidentified source. This is a Memphis report. It lists 4/5/68 interviews as including Brewer, Bernell Finley, Stephens, Julius Graham. Check to see if FD 302s in summaries on last 3 for this date. My recollection is that they were recorded as having been interviewed later but I'm not sure.
